Art Unit: 2111

1. Claims 1-34 are presented for examination. However, restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-22 and 34, drawn to "a small computer system interface (SCSI) system with a cableless element", classified in Class 710, subclass 305.

II. Claims 23-33, drawn to "a method of configuring/operating a SCSI system with cableless control", classified in Class 710, subclass 14.

Inventions I and II are related as apparatus and process for its practice. They fall under different categories of invention. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed in claims 23-33 can be used in another materially different apparatus such as a "system wherein module to module connection can be selectively chosen", classified in Class 361 subclass 733 or a "system wherein printed circuit boards are connected through backplane", classified in Class 361 subclass 788.

2. Because inventions I and II are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction of claims (1-22, 34) and (23-33) for examination purposes is proper.

3. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

4. Applicant should cancel the claims of non-elected inventions. However, applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2111

remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gopal C. Ray whose telephone number is (571) 272-3631. The examiner can normally be reached on Monday - Friday from 8:00 AM - 4:30 PM.
